Retinol liposomes drive active ingredients deeper into skin

### Under Eye Micro Serum Caffeine Liposomes 5% + Niacinamide Vitamin B3

Reduces appearances of puffiness and under eye shadows

### HYALURONIC ACID 5% + LIPOSOME SERUM

Smooth on your face and neck area for deep skin hydration

## ABOUT LIPOSOMES

Liposomes are natural high performance delivery systems made from non GMO plant phospholipids. These encapsulated nano sized ingredients are transported deeper into skin cells for high level results.

## ENCAPSULATION

Encapsulation makes it possible to improve the biology of active ingredients in order to release their content.

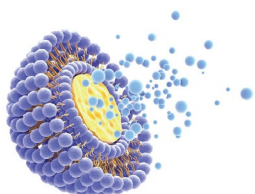

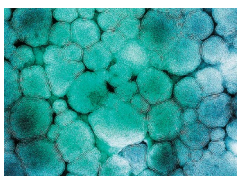

## NATURAL QUALITY

All liposomes components are derived from natural sustainable plant sources assuring the highest quality skin care products.

Liposomes are advanced systems used for delivery of natural products. They possess special characteristics which allow for the application of natural plant products in a more efficient and safer manner.

## ADVANTAGES & BENEFITS

- Natural based sustainable ingredients
- Emulsifier free - no parabens
- Highly stable formulation
- Liposome delivery to targeted skin cells
- Better skin absorption
- Enhanced effectiveness
- Controlled release
- Greater skin surface contract
- Replenishes skin moisture
- Strengthens your skin barrier
- Easy and smooth application

Liposomes Enable High Performance

**Organic Based Formulation.  
Ecological And Cruelty Free  
Products.**
