

RETINOL

Vitamin "A" 5%+
Liposome Serum

Help reduce fine lines and wrinkles This advanced powerful technology encapsulates Retinol to drive it deeper into Men's facial skin. Apply to moist clean facial skin daily

UNDER EYE MICRO SERUM

Caffeine Liposomes 8% +
Niacinamide Vitamin B3

Reduce appearances of under eye shadow and puffiness. Liposomes are very small packets that hold the caffeine to penetrate men's skin into the deeper layers of skin.

HYALURONIC

ACID 8% +
Liposome Serum

We blended this powerful formula with liposomes to quickly hydrate Men's facial skin. Look and feel visibly refreshed. Smooth on face and neck for deep skin hydration

ENCAPSULATION

Encapsulation makes it possible to improve the biology of active ingredients in order to release their content.

NATURAL QUALITY

All liposomes components are derived from natural sustainable plant sources assuring the highest quality skin care products. Liposomes are advanced systems used for delivery of natural products. They possess special characteristics which allow for the application of natural plant products in a more efficient and safer manner.

ADVANTAGES & BENEFITS

- Natural based sustainable ingredients
- Emulsifier free - no parabens
- Highly stable formulation
- Liposome delivery to targeted skin cells
- Better skin absorption
- Enhanced effectiveness
- Controlled release
- Greater skin surface contract
- Replenishes skin moisture
- Strengthens your skin barrier
- Easy and smooth application
